

H5 Home Theater PC Chassis
HTPC

H5 description

The H5 enclosure is the original statement of Origen AE's design ethos and commitment to provide high quality, beautifully crafted and aesthetically pleasing HTPC enclosures. Being the first chassis specifically crafted for use as a Home Theater PC, the Origen AE H5 has been carefully planned to maximize the consumers experience, from the finely machined aluminum front and side panels to the supreme brushed anodized finish of the aluminum, every detail has been engineered for maximum effect. The H5 is the benchmark from which all other HTPC chassis are gauged by. You know what they say, good design never ages, and this statement certainly holds true in the case of the stylishly elegant H5.
