

# S21T XD

## description

The OrigenAE S21T XD was designed to fit the S21T HTPC Chassis and provide extra cooling for graphic and tuner cards. Made from the same high quality aluminium this extractor will fit perfectly into the S21T. Mounted at the rear it will expel warm air above the cards keeping overall system temperature lower and more stable. Fitted with a 120mm fan this additional extractor runs quiet and can be easily installed and removed via 4 fixing screws.

## features

- all aluminium finish
- 120mm quiet fan
- fits S21T
- supplied with mounting screws
