

# VF310

## description

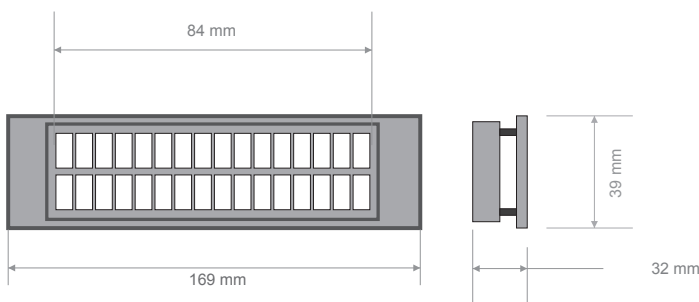

The OrigenAE VF310 can support a wide range of media programs on PC, and can automatically support these. VF310 is same physical size as VF210 and compatible with full MCE and iMedian HD included.

Display shows a very wide range of information is realtime such as :

- Media Center Feedback
- PC systems information
- Headline news
- Weather information
- Global City information
- A graphic equalizer
- Remote message
- Email checking

By utilizing iMedian software a large number of multimedia files and devices in PC can be controlled by remote control.

As it is powered from the ATX power cable and connected via USB, another key feature is the ability to switch your HTPC On/Off/Sleep mode by remote, and additionally to set up alarm for On/Off your PC.
