

# X10

## description

The X10 is in essence the X11's little sister. Given its pedigree, it has all of the style and the presence of its big brother but boasts a profile 20mm lower than that of its counterpart. However, this feisty temptress also has a full aluminium construct for efficient heat dispersion and sound damping, plus excellent hardware capabilities. The X10 enclosure is definitely for the discerning user who wants quality and power all contained within one aesthetically pleasing unit.

The X10 HTPC enclosure combines elegance with exceptional compatibility. This sleek styling is achieved with its unique PSU venting system that allows for it to be positioned at the front of the case. It is created with special density extruded aluminium side panels in order to contain as much noise as possible whilst still giving a high level of thermal conductivity. Vibration isolating grommets are standard for every hard drive and a complex airflow cooling design, including two 60mm exhaust fans, maximises airflow and cooling with minimum noise. It has a matching aluminium optical drive bezel, as do the I/O ports and 3.5" external drive bay below, maintaining the X10's clean appearance.

## features

- 8mm aluminium front face plate
- 2 x 60mm exhaust fan
- 1 x 80mm internal fan
- front usb, audio and firewire ports
- matched cd/dvd drive bezel
- blue illuminated power button
- vibration isolation grommets
- mce compatible ir module
- support for 1 hard drives
- supports full sized components

# specification

external dimensions (WxHxD)	- 435 x 150* x 458mm (*inc feet)
construction materials	- all aluminium chassis
mainboard support	- atx, micro atx
psu support	- atx psu
pci / agp card support	- full size
drive bays	- 1 x 3.5" internal drive bays - 1 x 3.5" external drive bay - 1 x 5.25" external drive bay
fan support	- 2 x 60mm rear exhaust fans - 1 x 80mm internal
expansion slots	- 7
front I/O ports	- 2 x usb ports - 1 x firewire (1394) port - 1 x headphone - 1 x microphone
ir solution	- ir trans
net weight	- ~4.54kg
available colours	- black, silver
